**Dust:** Met with a good demand. Clean bright liquoring types sold well at irregularly firm to generally easier rates. Others were easier. Plainer types met with a poor demand and suffered fair withdrawals.

**Comment:** Demand slackened as sale progressed resulting in lower rates and heavy withdrawals. However, clean well made invoices continued to attract good support from all sections of the market. Medium met with only a fair demand. Plainer types were difficult of sale. Blenders were again the major out-lets.
