Dust: Met with a fair demand. Clean good liquoring types sold at irregularly firm to generally easier rates whilst others shed Tk. 5/7 and there were fair withdrawals. CD's were generally a weaker market especially the plainer types which were often difficult of sale.

Comment: Blenders continued to lent active support to bulk of the teas an offer especially the better liquoring sort. Medium and the poorer types suffered some withdrawals following lack of interest. Dusts met with a rather weaker market and a fair weight remained unsold.
